

Phil graduated in May, 1999, and in July, their first child, Savannah, was born.

Currently, they are pasturing a church in Thornton, NSW.

About their Ministry

While Australia has around 18.4 million people, only about 3% are Christians. Most Australians are apathetic towards Christianity, relying upon a relativism philosophy.

The church plant in Thornton, NSW. This community is west of Newcastle and about 6 miles east of Maitland.

The church plant in Thornton, NSW, has had an American missionary in it for a couple of years, there is about 11 members in this church. So it is fresh and is ripe for harvest.

It has around 17 in its youth group of which at this point in time only three go to church on a Sunday. The Sunday School has about 15-20 in it. So there is a lot of promise and opportunity.

The Eagling family needs your

prayers as they fight a battle which cannot be won by human means.

Ephesians 6:12

"...our struggle is not against flesh and blood, but against the rulers, the powers of this dark world and against the spiritual forces of evil and the heavenly realms."

Phil & Sharon Eagling

Philip and Sharon Eagling came to America from Australia in July of 1995, not knowing how God was going to provide for them. Phil began classes at Johnson Bible College in Knoxville shortly after arriving. They have seen first hand how faithful our God is, and as their faith has grown, their lives have changed. Their experience in America has strengthened their walk with God, and shown them a whole new way to look at life.
